APPRECIATION

The production of an operetta is a complicated process, particularly when time and physical facilities are limited. "H.M.S. Pinafore" is a result of the efforts of many people, students and faculty alike. A number of the people working on it will be seen on the stage. However, there are others who are not called upon to display their talents publicly.

May we request that you give some attention to the production staff listed in this program? They have accepted their responsibilities and worked diligently to make our operetta possible.

We would like to point out that much of this has been done by Kearny High School students. Faculty members have supplied leadership, but the students have shouldered the burden to a marked extent. We feel that PINAFORE has definitely been a worthwhile educational activity for those who have participated in its production. Some of our students have grasped their responsibilities in a most efficient manner.

Particular appreciation from Kearny High School goes to Miss Ellen R. Breen and Mr. Barnard Taylor of Kit Carson Elementary School and to Mr. Wayne Laughery of the Community Building. Their cooperation and assistance has been very helpful.
